

Let's Go! Redy Levels

When your site completes a registration form (as you will do each year you want to participate), we ask that you pick your level of commitment to increasing healthy eating and active living at your site. There are two levels from which to choose:

Redy 1: This level is for sites who are interested in just getting their feet wet or sites who are returning and do not need technical assistance. They would like to use some materials, and don't want site visits or hands on technical assistance. Redy 1's are not eligible for competitive Let's Go! mini grant funding.

As a Redy 1 site, you will receive:

- Toolkit on a flash drive (new sites will also receive a hard copy)
- Monthly toolkit highlight emails
- Invitation to Let's Go! learning opportunities (symposia, e-presentations, etc.)
- Let's Go! Sector Listserv
- Start up e-presentation
- Technical assistance as requested

Redy 2: This level is for sites who are ready to implement and sustain the 10 evidence-based Let's Go! strategies and have a team and administrative support. They want hands-on technical assistance (site visits) and the opportunity to apply for competitive mini-grants. *A limited number of sites can be supported at this level, on a first-come first-served basis.*

As a Redy 2 site, you will receive:

- Toolkit on a flash drive (new sites will also receive a hard copy)
- Monthly toolkit highlight emails
- Invitation to Let's Go! learning opportunities (symposia, e-presentations, etc.)
- Let's Go! Sector Listserv
- Technical assistance as requested
- Fall site visit
- Spring site visit
- Opportunity to apply for competitive mini-grant funding (if funding is available)

What we require of our Redy 2 sites:

- A team to implement Let's Go!
- A minimum of 2 site visits by Let's Go! staff
- Completion of a spring survey

Please contact us at info@letsgo.org if you have any questions.
